BROTHERS OF MADERO CHARGED WITH TREASON IN THE

REBELS ATTACK TAPISCO
AND FIGHTING NOW GOING
ON WITH FEDERAL TROOPS

MEXICAN GOVERNMENT TO ASK
UNCLE SAM TO ARREST DEAD
PRESIDENT'S BROTHERS AT
SAN ANTONIO.

MEXICO CITY, March 8 — The Mexican government is preparing to ask the United States authorities at San Antonio to arrest Emilio and Raoul Madero, brothers of the late president of Mexico, charging conspiracy to incite rebellion against the legal and recognized government. The charges are based on telegraphic reports that the Maderos are establishing a revolutionary junta and disbursing large sums for the establishment of an army.

Battle Raging Today—

MEXICO CITY, March 8 — Fighting is reported today between the federal and rebels at Tapisco, northeast of Hermosillo, the rebels having attacked the town.

The rebellion is spreading to the north and uprisings are reported today at a number of new points.

It is believed that Madero money is financing the outbreaks and there are growing indications of bitter factional fights when the presidential election is called.

Another Bloody Battle—

MEXICO CITY, March 8 — One of the bloodiest battles of the revolution is being fought today at Anheloxtle, in the state of Coahuila. An army of 5,000 federalists attacked a band of 2,000 rebels, who seem to be holding their own in the fighting.

NEGRO GIRL S CHARGED \$25 FOR CARVING TWO BLACK MEN

GERTRUDE STEFFIN PLEADS
GUILTY TO ASSAULT AND BATTERY AND IS FINED BY MAYOR TITUS.

Pleading guilty to a charge of assault and battery when accused of attacking a negro man with a knife and cutting him, Gertrude Steffin, colored, was fined \$25 and costs by Mayor Titus in court this morning. In the testimony brought out in connection with the case it developed the girl went into the man's room while he was in bed, carved him up some, and when another buck negro attempted to interfere the knife used in the carving was stuck into the second black man.

MEMBERS OF DAYTONA HIGH SCHOOL LARGE SHAKESPEAREAN PLAY

The presentation of a play by members of the Daytona high school in the auditorium of the school building yesterday evening was a very creditable performance of this well known Shakespearean play. Suitable costumes for the various parts had been secured and all the characters were very well taken. The careful training of those taking part was plainly discernable and reflects much credit upon Miss Ora C. Lively, assistant principal of the high school, under whose management the play was produced.

A diversion was created in the middle of the second act by the blowing out of an electric light fuse, which left the auditorium in darkness for a period of five minutes or more, but did not prevent the continuance of the performance during that time.

Following is the cast of characters:

Viola—Ashley Maley.
Sea Captain—John Milligan.
Sir Toby—Morris Niver.
Maria—Linna Stubenbord.
Sir Andrew—Wilhelm Ballough.
Duke Orsino—Emily Douglass.
Curio—Winthrop Esch.
Valentine—Winthrop Esch.
Clown—Kate Dittman.
Malvolio—Ben Shaw.
Olivia—Irene Esch.
Sebastian—Inez Maley.
Antonio—Carl Wetherell.
First Officer—Winthrop Esch.
Fabian—Curtis Gardiner.

HONOR OF THE DAYTONA

WASHINGTON, March 8 — The president's list of appointments to the supreme court were received in the blue room, and among the visitors at the White House were Mr. Frank Glass and Governor O'Neal of Alabama. The president and his wife will attend the theater tonight. It is authoritatively stated at the White House that unless England files an objection Richard Olney will be the next ambassador to Great Britain. Mr. Olney was formerly unpopular in England because of the firm stand taken in the Venezuelan matter while he was secretary of state under President Cleveland.

Father M. J. Curley of DeLand was a Daytona visitor Friday.

AT CLEVELAND PLANT.
CLEVELAND, March 8 — Rioting was started today by strikers and sympathizers at the Mechanical Rubber plant. Shots were fired and stones and missiles thrown. That the strike will be extended to the Chicago plant if the demands of the strikers are not met, is the threat made by the strike leaders.

DON'T LIKE ATTEMPT TO KILL TREE

PEOPLE OF DAYTONA BEACH
ARE AROUSED OVER ACTION

LINEMAN IS SAID TO HAVE
BEEN ARRESTED AND FINED
AND FURTHER COURT ACTION
MAY FOLLOW.

For pouring kerosene into the top of a fine palmetto tree on Seabreeze avenue, in front of the residence of Charles Willson, a lineman, said to have been in the employ of the telephone company, is said to have been recently arrested and fined in Daytona Beach. Just what was the object of the man in pouring the kerosene into the tree was not made clear, but it is known that this method is sometimes used to kill palmetto trees, and this is the inference drawn from the action.

It is stated that Mr. Willson paid \$2.50 for the tree when it was set out and he is now waiting to see if the tree dies. If the palmetto fails to live, it is said action will be taken against the lineman under the town ordinances and also under the state laws which protect trees. Considerable feeling over the matter has been aroused among the residents of Daytona Beach.

ORGANIZING A CREDIT ASSOCIATION HERE

W. P. Henry, representing the Merchants' Mercantile Agency of Pittsburgh, publishers of the Credit Experience Guide, is in the city, working up interest in a local organization and has enrolled most of the business men of this city and Daytona Beach, about 50 in all. A meeting will be held some time next week for the purpose of perfecting an organization.

EXACT NUMBER KILLED IN
EXPLOSION IS NOT KNOWN

FEDERAL AND STATE GOVERN-
MENTS BEGIN INVESTIGATION
INTO THE CAUSE OF TERRIBLE
ACCIDENT.

BALTIMORE, Md., March 8 — The latest figures obtainable today place the number of dead as the result of the terrific dynamite explosion at 50, with 75 injured. The number of dead may run much higher, but the probable exact number will never be known.

The hospitals are today filled with the injured and many patients have been enacted as a result of the explosion.

It has been established that tons of dynamite exploded on a British tramp steamer. The federal and state governments have started investigation into the cause of the explosion.

Up to late this afternoon 16 additional bodies had been recovered. The property loss because of the explosion will reach more than \$500,000.

ROBBERS CRACK BANK SAFE AND ESCAPE WITH \$10,000

BLOW OUT SIDE OF BUILDING
AND CUT ALL TELEPHONE AND
TELEGRAPH WIRES AS THEY
LEAVE TOWN.

BOSTON, La., March 8 — Three robbers cracked the vault in the State bank here today, secured \$10,000 and made their escape. The force of the explosion blew out the side of the building.

As the robbers left town they cut the telegraph and telephone wires. A posse is in pursuit.

CELEBRATED HER SEVENTH BIRTHDAY ANNIVERSARY.

Little Miss Jean Frances Conrad entertained about 40 of her young companions, both boys and girls, at her home on Orange avenue Friday afternoon, in celebration of her seventh birthday anniversary.

Games were played and dancing enjoyed by the little folks, and the hostess herself sang for them, being accompanied by Mrs. C. C. Bohannon. She also played very nicely on the violin. Mrs. Bohannon accompanying her on the piano. Mrs. Bohannon also played for the dancing. A donkey contest caused much merriment. Miss Jean Frances received numerous pretty presents in remembrance of her birthday. Cake and ice cream were served and on their departure each of the small guests was presented with a neat little basket of candy as a souvenir.

Gift for Business.
 Willie's father conducts a boat renting business on the Jersey side of the Hudson.
 "I'll give you a dollar if you'll bail out the boats, Willie," said the father one morning after a rain.
 There were 25 boats and Willie wasn't keen. So he was non-committal. A little later his friend Albert came over.
 "I'll give you a quarter if you'll bail out the boats," said Willie to Albert.
 "Gee! What'd ye take me for?" returned Albert as he surveyed the fleet of rowboats. "It's worth 35 cents, anyway."
 "Well, all right, 35 then," said Willie.

Albert got busy and did the bailing, while Willie looked on and, Tom Sawyer-like, bossed the job.
 The work done, Willie collected, paid Albert and pocketed 65 cents.
 "That boy'll be a business man," remarked the father to Willie's mother later, but not in the boy's hearing.—New York Herald.

Proper Things to Say.
 To a young woman who has forsaken school teaching for matrimony and housekeeping: "Don't you feel lost without anything to do?"
 To a motorman: "Don't you sometimes get tired of stopping for people?"
 To a doctor: "I should think your irregular hours would almost kill you."
 To a newspaper man: "But of course, I never believe more than half that I read in the papers."
 To a postman: "Don't your feet ache by night?"
 To a librarian: "You must enjoy reading the new novels ahead of everybody else in town."—Newark News.

Kissing Conjugated.
 "Sam" Slick once said that kisses were like creation—made out of nothing and very good; and another American writer thus conjugated the verb, "to kiss."
 "Buss, to kiss; rebus, to kiss again; pluribus, to kiss without regard to numbers; syllabus, to kiss the hands instead of the lips; blunderbus, to kiss the wrong person; erbus, to kiss in the dark; omnibus, to kiss every one in the room."

Dish for the Gods.
 Liver and onions, artistically blended, produce a fragrance that wafted to the summit of Olympus, would cause the jovial Jove to kick over the ambrosia kettle and come thundering down the craggy steeps in quest of a new dish for the gods.—Kansas City Star.

Cheating the Stage.
 "Why is there no great American dramatist?" asked the art pessimist. "Because," replied the sardonic manager, "when an American is capable of thinking up a first-class practical plot and dressing it up in good speeches he doesn't bother about the theater. He goes into politics."

JUST GOSSIP
BY THE GOSPIER

Continued for an adequate reason
in the city of Daytona. To
keep the present value of the
land in the front of the
city is clearly shown, and it is
evident that the time is not far
distant when definite action toward
the acquisition of a good system of
water will be taken. It is up to the
people to make the demand.

The first church in Daytona
was founded in 1885. It is
located at the regular meeting of
that community this week, when
members debated the proposition that
Daytona, Daytona Beach and Seaside
should be incorporated into one city.
At the time this city and its
neighboring towns were growing it
will not be long until some action of
this nature will be taken, and Kingston
and Seaside will also be included within
the city limits.

There is much an effort is being
made to have the coming state
legislature change the green frog
symbol on the license plates to
something more appropriate. It is
proposed that the green frog be
replaced by a picture of a palmetto
tree, which is the symbol of the
state. The proposition is being
pushed by the growers of that county
and it is expected that it will be
adopted.

Because John D. Rockefeller likes
Daytona and is not afraid to say so
or because the growers in every
other county in the state would not
be so stupid as to ship until a certain
date. Hence, the growers must

other county in the state would not

"Oh, Mr. Greenman, we want
to know what you think about this
matter. Are there all the kinds of
vegetables you have?" This was a
question asked at a clerk in the
Central Grocery store this morning.
The clerk was compelled to answer
the question in the affirmative.
The only ones on sale at the time. And
the list of vegetables, just brought
in and put on display, included
cabbage, cauliflower, new potatoes,
beans, corn, tomatoes, onions,
cucumbers, radishes, egg plant,
peas and parsley. Just what ad-
ditional kinds of vegetables the
woman expected to find she did not
expect, but an examination of the
list on sale might bring the
suggestion that about the only kinds
missing were fresh apples and
oranges.

Easter Sunday will come this year
March 22, the earliest date since 1895
and the earliest it will come again
will be 2008. In this connection it
is interesting to note that Easter
Sunday comes this year next to the
earliest it can possibly come. Ac-
cording to the church calendar, Easter
Sunday fell on March 22 in 1818,
as well as on the same date in 1758. It
will not fall on March 22 again until
the middle of the 21st century. Twice
during the 19th century, in 1845 and
1865, Easter Sunday came on March
21, and once during the 20th century,
this year of 1912. Lent will not begin
as early again until 2068, when Easter
Sunday will again fall on March
21. In the early church there was
a vast difference of custom with
regard to the day of the week and the
day of the month when Easter should
be celebrated. It is recorded in his-
tory that Constantine had the subject
brought before the council at Nice in
325. The question was fully discussed
and finally settled for the whole
church by adopting the rule which
makes Easter day to be always the
first Sunday after the full moon which
comes on or next after March 21,
and if the full moon should come on
a Sunday Easter day is the Sunday
after. By this arrangement Easter
may come as early as March 21 or
as late as April 25.

Because John D. Rockefeller likes
Daytona and is not afraid to say so

and because John D. Rockefeller is
taking the trouble to let his friends
know what he thinks about Daytona,
which has been talked by the power
that he, who think they own and
control the great East Coast, these
same powers that he are apparently
stealing to some mighty law tricks
to keep Daytona, and make it
appear that the wealthiest man
in the world is spending the winter
months at some of the big hotels op-
erated by the Florida East Coast
railroad. There is nothing remarkable
in the fact the richest man in the
world should always seek the best
and that he should naturally select
Daytona in which to spend his win-
ter months, but the thing which
these powers that be in the fact that
Daytona is steadily growing in popu-
larity in spite of their efforts to
the contrary and that the people they
have ignored as unworthy to keep
away from the greatest winter re-
sort in the world, the gradually in-
creasing this is the real reason for
sort and are naturally growing. Then
Daytona is gradually coming to be
own and a good example of an in-
dependent advertising agent has been
since the war between the Florida
East Coast railroad and the fact.

The proposed bill which has over
President Taft's veto called the
attention of the public to the
question more directly. No one can
understand to show that it is a
question, but there seems to be a
very well established opinion that
this is all parts of the bill, and
that the law will come into effect.
The bill is as follows: That the ship-
ment or transportation of any com-
modity or by any means of transpor-
tation, whether by land, water, or
other means, from any place or
kind, from one territory or district
of the United States, or place
unincorporated to but subject to the
jurisdiction thereof, into any other
state, territory, or district of the
United States, or place unincorporated
to but subject to the jurisdiction
thereof, shall be subject to the
jurisdiction thereof, which shall be
subject to the jurisdiction thereof,
whether by land, water, or other
means, from any place or kind, from
one territory or district of the United
States, or place unincorporated to
but subject to the jurisdiction thereof,
into any other state, territory, or

place unincorporated to but subject
to the jurisdiction thereof, whether
by land, water, or other means, from
any place or kind, from one territory
or district of the United States, or
place unincorporated to but subject
to the jurisdiction thereof.

poetry of any kind, but The Gospi-
er feels like making an exception in
the case of the following, written by
Knox A. Hopper, editor of the State-

lar winter guest in Daytona and is
now residing at the Hotel Clarendon:
What is an Elk? Well, my son,
I've just heard about it. It's a
man who, when he is in the ground,
will speak God's machine all
night.

What is an Elk? A fellow I think—
oh, you know him. He's a drink-

was used as a sugar mill.

23--ONLY--23 OCEAN FRONT LOTS Opposite Daytona 50 by 250 FEET at \$250 each

This is but \$5 per front foot, and the cheapest beach property that is being offered, aside from this plat, is \$10 per front foot or \$500 per 50 foot lot. The owners of this plat, however, are satisfied with a reasonable profit and willing to let the purchasers make a good profit.

Anyone who has watched peninsula property knows that it is rapidly developing, that there is but little of it on the market. The plat which we offer is just south of the Daytona Beach corporate limits, and property on either side of it is held at much higher prices.

If you want a bargain grab it quick. Not over two lots sold to one purchaser.

Conrad-Oates Realty, Title & Ins. Co.

N. B.—Since the above ad. was written four of the lots have been sold, two having been purchased by E. L. Potter, president of the Clarendon Hotel Co., who contemplates building a bungalow thereon.

PENINSULA PROPERTY IS
BEING DEVELOPED RAPIDLY

SALES, CHANGES AND IMPROVEMENTS DURING PAST 15 YEARS HAS BEEN ALMOST WONDERFUL.

Attention is called to the advertisement of Conrad and Gates in this issue, offering for sale ocean front lots.

Less than 15 years ago a prominent business man of this city was the proud possessor of a spring-riding bicycle and was offered in exchange for it several acres of land in Seabreeze, situated on the river on both sides of what is now Ocean Boulevard, and now covered with beautiful homes. This gentleman tramped through what was then scrub and decided that he would rather have the bicycle.

This is only one instance showing the wonderful development that has taken place on the peninsula within the last few years and today there is more building going on than at any time previous. The class of buildings is rapidly getting higher and many of the cottages built six and seven years ago are being torn down to make room for more elaborate structures. The value of real estate is increasing more rapidly today than at any time previous, and this can be accounted for by the rapidly increasing number of people coming to Daytona who wish to be near the ocean and the beach, the world's most wonderful speedway and the greatest asset this vicinity has.

The development is not only going on near Daytona but extends from Ormond to Ponce Park. Nearly all the property between Ormond and Seabreeze has been sold this winter to people who expect to open it up and develop it. Between Daytona Beach and the Port Orange bridge a large tract is being cleared and already many of the lots have been sold. Below the bridge, Wilburby-the-Sea is rapidly coming to the front and a number of bungalows and other buildings have been constructed. The property lying south next to the inlet has been sold and will be turned into a fishing and hunting resort lying as it does at the best fishing grounds on the East Coast.

It is safe to say that with Daytona Beach and Seabreeze as a center the development in both directions on the peninsula will be far more rapid within the next few years than at any time previous.

Modern Astronomy.

The popular idea of the astronomer, says a writer in the World's Work, as one who spends his time in sleeping by day and peering through the small end of a telescope by night, must be dismissed. "The greater part of the modern astronomer's time," says the article, "is spent in studying photographs," often with a microscope. "Paradoxical as it may seem, an astronomer today gazes more often through a telescope."

Absent.

Come along to the "movies." Follow the crowd. We sob when it sobs, and, in turn, laugh aloud. Our hearts freely leap to the maid on the curtain, whose job is to weep when her feelin's are hurtin'. We pity the chap who has landed in prison—would gladly exchange all our pleasures for his'n. But where is the fellow with pity to feel for the soul in the coop who is turning the reel?—Judge.

Freak of a Vowel.

Grigg—"This morning I caught a fragment of conversation between a native and a foreigner. The former was saying: 'The "o," remember, is pronounced like "i" in Jim.' What word do you suppose he referred to?" Briggs—"That's easy! 'Women,' of course."

Does Electrocution Kill?

Does electrocution really kill? Or does it only render unconscious—the patient dying, in point of fact, upon the operating table, during the autopsy? There are able physicians who contend that such is the case. Again, others say that it is not.—Popular Electricity.

and results in malaria, etc. A physician is called to treat the case, but he is not far from the kitchen. The worst that can be said about human excrement is that it is an unpleasant odor. But odors do not produce disease. We know, however, that the excrement from enteric fever, etc., contains bacilli. But these can be transmitted by a kiss, or by drinking from the same vessel not previously sterilized. Or, if it is left exposed where flies can get to it, they can, and I believe, carry on their little padded feet thousands of microbes. This is not a theory but a demonstrable fact and will remain so until new observations in the light of more extended knowledge prove it false.

Anyone can have an opinion, but opinions to be correct must be based upon indisputable demonstrations, observations and experiments, and the evidence of its truth or falsity must be derived from a consideration of the laws of nature upon living organisms of both animal and plant life, for both are micro-organisms that produce sickness, disease and death. Dead leaves, for example, cannot possibly be of further use to the tree until they have rotted. Bacteria attack the leaf and get from it what is needed for their own life. In so doing they cause it to fall to pieces and produce new compounds and gases absorbed from the air which are suitable for the use of growing plants and are taken up by them. When the bacteria themselves die their bodies are decomposed, and what they have taken from the leaf is given back to the soil. It must be seen that all things literally return to the dust from whence they came. After a while that which we call life is gone but leaves behind all that it had borrowed both of energy and matter. After death the body of man becomes food for lower forms of living things and they in turn for the support of vegetable life, and the vegetable life in support of the animal. Thus does nature go on continuously.

CHOOSING A HOBBY.
Make It One That Will Follow the Tension of Business.
Writing on the advantage and enjoyment that a busy man will derive from a hobby, Arnold Bennett says in the Metropolitan:
"In choosing a distraction—that is to say, in choosing a rival to his business—he should select some pursuit whose nature differs as much as possible from the nature of his business, and which will bring into activity another side of his character. If his business is monotonous, demanding care and solicitude rather than irregular, intense efforts of the brain, then let his distraction be such as will make a powerful call upon his brain. But if on the other hand the course of his business runs in crises that string up the brain to its tightest strain, then let his distraction be a foolish and merry one."
"Many men fall into the error of assuming that their hobbies must be as dignified and serious as their vocations, though surely the example of the greatest philosophers ought to have taught them better. They seem to imagine that they should continually be improving themselves in either body or mind. If they take up a sport, it is because the sport may improve their health. And if the hobby is intellectual it must needs be employed to improve their brain."
The fact is that their conception of self-improvement is too narrow. In their restricted sense of the phrase they possibly don't need improving. The point of being a nuisance to their fellow creatures: possibly what they need is worsening. In the broad and full sense of the phrase self-improvement, a course of self-worsening might improve them.

Her Appetite Didn't Suffer.
"Do you think, Miss Clara," he asked, with infinite tenderness in his voice, as he handed her the bill of fare, "that your appetite is affected when one is in love?" "I haven't a doubt of it," she replied, glancing at the bill of fare, and then she turned to the waiter and said: "Bring me beef, please, with plenty of fat, and mashed potatoes, parsnips, and boiled onions."
Nature's Method of Protection.
There has been brought to light an astonishing number of forms of fish, and especially a group of a brilliantly red color living in the ocean at a depth of 5000 feet. But, astonishing as it may seem, these brilliantly colored fish and seaweeds, instead of being conspicuous in the water at that depth, are nearly invisible, when almost any other color could be easily seen.

Brilliant French Wit.
It was Count Montebello who said to Alexandre de Girardin of a young man who was beginning to make a brilliant reputation, and whom Girardin did not appreciate: "Hasten to recognize him, or he will not recognize you." His valet waited on him one morning most unobtrusively. He could find none of the latest articles. Montebello handed them to him remarking: "You must admit that you are lucky to have me here. Without me, you certainly could not wait upon me."

Make-Up.
As for paper fasteners a touring actor writes to point another of their utilities: "There is, at times, in a small company, especially, a scarcity of starched linen. And shirts, like King John's treasure, get lost or mislaid in the wash. You are playing a dude part, say, with naught but a flannel shirt to go with your dress coat. Take a sheet of note paper, or foolscap, prod it under your vest, and where the central stud should be insert a round-headed brass paper fastener!" Necessity mothers invention.

Freedom of Speech.
The classic argument for freedom of speech was made by Milton in his "Areopagitica" when he wrote: "Though all the winds of doctrine were let loose to play upon the earth, as Truth be in the field, we do ingloriously by licensing and prohibiting, to misdoubt her strength. Let her and Falsehood grapple; who ever knew Truth put to worse in a free and open encounter?"

Wife's Device.
A Caney man received several letters threatening his life in case he was seen on the streets at night. As a consequence he didn't venture out after sundown. Postoffice inspectors discovered that the letters had been written by the man's own wife. It was a way she devised of keeping him home nights.—Kansas City Journal.

Some Consolation.
We like a girl who looks on the bright side of things. Miss Murnford wished to console a friend of hers who had become engaged, somewhat against her own will, to a man with only one leg. "But think, my dear," said Miss M., "how soon you will be able to run him up a pair of slippers!"

Packing Food in Ferns.
In Germany the use of ferns is coming into more and more favor for packing food which is transported either short or long distances. The practice became common in England before it gained equal vogue in Germany, and the results are said to be excellent, especially in shipping fresh fruit, butter, fish and other food products which require unusual care.

Live Not for Self.
To man it is said—you do not live for yourself. If you live for yourself you shall come to nothing. Be brave, be just, be pure, be true in word and deed, care not for your life, care only for what is right. So, and not otherwise, it shall be well with you.—Froude.

Daytona's new chemical auto fire
engine has been given successful
trials and has been accepted by the
city council. An experienced driver
and attendant will be employed to
take charge of the machine.

The custom house receipts in Tem-
pe for the week ending last Satur-
day ran more than \$100,000 ahead of
the receipts for the same week of
last year. For the month of Feb-
ruary the importation of cedar logs
showed a total of 111,000 feet val-
ued at \$243.

The annual convention of the Flor-
ida association will con-
vene at the Hotel 13 and 14. The
annual convention of the Indus-
trial Union of Marine Engineers in this
state will convene at the Pen-
insular Hotel company of Tampa
which recently increased its capital
to \$1,000,000.

Mrs. M. Darr, organizer of the Na-
tional Housewife's League, is at St.
Petersburg for a visit of a month
with a party of other well known
Philadelphia people. Mrs. Darr start-
ed the movement which drove down
the price of eggs and other food prod-
ucts in Philadelphia and other north-

ern cities.

Sugar cane has been grown in Flor-
ida for at least 400 years. The Jesuit
priests as early as 1815 cultivated
sugar cane and made it into sugar.
Before the civil war Florida was the
largest sugar producing state. It has
always been a good paying crop and
it is a pity that large plantations and
refineries are not now maintained in
this state.—Chipley Banner.

J. W. Dickerson tells us that L.
W. Tilden shipped 5,408 crates of
lettuce from eleven acres, and he now
has in twenty-five acres of lettuce,
the second crop. It is a beautiful
field and as soon as the twenty-five
acres is cropped it will be set to cu-
cumbers. There are several acres
out to cukes now.—Winter Garden
Times.

A second large shipment of fruit
trees in a week—apparently peaches
this time—passed through here down
the Boca Ciega and St. Andrew Mon-
day to the Sale Davis demonstration
farm and orchard at Vicksburg. The
company is making of this location a
very pretty place and demonstrating
that many things grow prolific and
well in this section of west Florida.
The company's Bermuda onion patch
alone is a pleasing sight to behold.—
Chipley Verdict.

GENIUS AND VANITY.

Schopenhauer Was Not a Bit Afraid to
Praise Himself Out Loud.

Schopenhauer, the great German philo-
sopher, afforded one of the most re-
markable examples of self complacency
that has ever been known. His naive
eulogisms on his own productions are
almost beyond belief. In writing to
his publishers of his work he says:

"Its worth and importance are so
great that I do not venture to express
it even toward you because you could
not believe me," and he proceeds to
quote a review "which speaks of me
with the highest praise as the greatest
philosopher of the age, which is really
saying much less than the good man
thinks."

"Sir," he said to an unassuming
stranger who watched him across a
table d'hôte where he acted the part of
the local "lion" habitually—"You are
evidently unimpressed at my ap-
petite. True, I eat three times as much
as you, but then I have three times as
much mind."

Auerbach, the German novelist, also
had a great appreciation of his own
powers and gifts, and many stories
are told of his excessive vanity in which
he indulged himself. A German
writer says of him: "Every time Auer-
bach visits three or four fashionable
dining places, at each of which the
following episode occurs at least three
times. The novelist indulges in con-
versations with the little children of the fa-
mily and invariably ends the conver-
sation thus: 'Knowest thou who has been
talking with thee? Behold Auerbach! Tell that at home!'"

GRIT OF A SHARPSHOOTER.

Sergeant Halliwell's Feet at the Siege
of Lucknow.

During the siege of Lucknow in the
Indian mutiny there was a famous shot
which was probably the most notable in the
history of the record in war of a crack shot.

The rebels were endeavoring to
mount two eighteen-pounders, which
they had hauled up to the flat roof of
one of the palaces surrounding the res-
idency, and it was necessary to pre-
vent this being done, or they would
have been able to pour down a heavy
fire on the defenders. Sergeant Halli-
well was chosen for this duty. He was
a crack shot of the Thirty-second foot.

Being given the best rifle that could
be found, his orders were to prevent the
guns being mounted. He took up
his position behind some battered down
masonry where there was only cover
for him to lie at full length. He re-
mained in that position, it is said, for
several days, not being able to stand,
inasmuch as that would have resulted
in instant death. His only change was
to roll over from his back to his stom-
ach. His eyes were ever kept on the
dismounted guns, and whenever the
Seps attempted to mount them his
unerring rifle played havoc among
them and prevented their object being
accomplished. Food was brought to
him at night by men who crawled to
his position.

After some time a sortie was made,
and the Seps were defeated. For this
brave work Sergeant Halliwell re-
ceived the Victoria cross.—Harper's
Weekly.

Seven In the Bible.
The number seven plays a prominent
part in events in the Bible. The crea-
tion took six days, and on the seventh
there was rest. On the seventh day of
the seventh month a holy observance
was ordained, and the Israelites feasted
seven days and rested seven days.
Noah had seven days' warning of the
flood, and the seven years of plenty
were foretold in Pharaoh's dream by
seven fat beasts, as were the seven lean
years by seven lean beasts. We speak
of the seven heavens, and the seventh
son was supposed to be endowed with
pre-eminent wisdom. In short, there is
no other number which enters into the
Bible so often as seven. No doubt the
wide popularity of the number and the
superstitions which are connected with
it came from its wide use in the Bible.

Tacking Explained.

"What do people mean when they
talk about tacking?" asked Bobby, who
had listened to a detailed account of his
sister's first experience in a sail-
boat, but in considerable confusion of
mind.

"Oh, you'll know when you're a little
bit older," said his sister, but the small
round face wore an expression of in-
jury, and she had to explain further.
"Why, it's just turning halfway
round," she said, with slight hesitation,
"and then—and then you sail on the
bias."

The Gurgle In the Bottle.

Why does water gurgle when poured
from a bottle? As water pours out air
attempts to pour in. Occasionally the
hand holding the bottle may move and
give the air the opportunity. The quick
rush of the water to fill the hole made
by the air causes the gurgling sound.

Grading the Rulers.

Themistocles, it is said, declared that
his son was the strongest man in
Greece.
"For," said he, "the Athenians rule
the Hellenes, I rule the Athenians,
your mother rules me, and you rule
your mother."

A Really Smart Man.

"He always says the right thing at
the right time, doesn't he?"
"More than that. He always keeps
still at the right time."—Houston Post.

Very Much Easier.

"Any man can make a fool of him-
self."

FOOTBALLS.

They Are Not Made of Pigskin and the
"Bladders" Are Rubber.

When you refer to football players as
pigskin bladders, state that bladders can
shoot the pigskin, you display consider-
able ignorance, said a member of a team
which manufactures the spheroids used
on many of the big and little gridirons.
For the football is not made of pig-
skin at all. In fact, no part of the low-
ly but luscious porker enters into its
construction.

Football covers are made from the
material that goes to make your shoes—
calfskin. And only the very best grade
of skin is used for good ball-
cheap balls, such as kids buy at the
corner store, are made of sheepskin.
The bladder which is in the ball is rub-
ber.

A visit to the factory where the great
number of footballs are turned out
elicits more interesting information.
For instance, a shop sage says that the
reason the ball is called pigskin is that
in the old days a pig's bladder was
used to give buoyancy to the ball. The
bladder has been discarded and rubber
substituted.

The amateur intercollegiate ball
weighs from thirteen and one-quarter
to fourteen ounces. The soccer ball
weighs from thirteen to fifteen ounces.
Skins of football covers are care-
fully inspected and are sent to the fac-
tory for special treatment. The
nighttime is a fine means of re-
jection.

In the cutting room skill is required
to prevent waste. Cutting is done with
machines. The cutter divides the hide
into as many oval sections as possible
and sends the pieces to the girls who
take up the next stage, which consists
of carefully lining the leather with cot-
ton twill. This is the only work in-
trusted to girls. It is slow and must be
done perfectly.

The fibers are attached together on
one machine and the covers on another.
From the last machine the covers come
wrong side out, and the better grades
are reversed by hand. The covers are
turned right side out by machinery.

Turning a football cover by hand re-
quires great strength. Some men do
nothing else and as a result become ex-
ceptionally strong of hand, wrist and
arm.

The rubber bladder is inserted, and
when inflated the oval begins to look
like the finished product now seen on
many fields, but the ball is not ready
for delivery. It is stamped on a not
press and "worked" until its outer sur-
face is ready for the kickoff.

Although the game has changed
greatly, the ball remains about the
same as the old Rugby.

Changed Times.

In a meadow a half dozen young wo-
men golf players were practicing pat-
ting. They looked very smart in their
trim golf suits, their skirts of rough
homespun and their scarlet jackets.
An old farmer and one of his farm
hands approached.

"Boss," grumbled the farm hand,
"them girls in the meadow is scarin'
our cows."
The old farmer shook his head and
sighed.

"Ah, Timothy," he said with pro-
found truth, "times is changed since
I was young. In them days the cows
scared the gals."—Washington Star.

The Troubles of a Giant.

George Cumberland saw the famous
giant Obrian Boro in the Strand in
London in 1784, and in "The Cumber-
land Letters," edited by Clementina
Black, gives this note on him: "His
hand, from the ball of his thumb, ac-
tually measures eleven inches and a
half and is large in proportion. When
I stood up I could just with my fore-
finger touch the bottom of his chin—
in a word, he is eight feet three inches
high, and his bones are in proportion
large—but the poor devil seems to be
dying for want of air and exercise.
He is nineteen years of age and ex-
pects to be nine feet high."

Curious Russian Law.

Russia has a law which to outside ob-
servers seems almost to put a premium
on theft by which stolen goods become
the property of the thief if he can
prove that he has had possession of
them for over five years. In the thieves'
market—which is, of course, licensed by
the police—goods that admittedly have
been stolen (more than five years be-
fore) are openly offered for sale, and
the place is a veritable Mecca for the
light fingered gentry and their enter-
prising friends, as also for the more
honest members of society, who secure
many a tempting bargain.

An Even Break.

Mr. Jinks—You've spent fourteen
mortal hours and \$35 and what have
you got to show for it? One hat worth
about \$3.50. Mrs. Jinks—True. And
last week you spent five days and
\$118, and what have you got to show
for it? One fish story about a big
trout that got away and an awful cold
in your head.—Country Gentleman.

An Important Man.

"Always boasting, eh?"
"Yes; everything connected with
him is always in the superlative. Even
when he had a cataract on his eye it
was a regular Niagara."—Kansas City
Journal.

Same Thing.

Gillet—See here! Did you tell Bodo
I'd been cheated again? Perry—No; I
merely said you had made another of
your characteristic investments.—Lon-
don Mail.

Do not allow idleness to deceive you,
for while you give him today he steals
tomorrow from you.—Crowquill.

DR. ESCH NOT A CANDIDATE FOR DAYTONA BEACH MAYOR

DECLARES HIS NAME HAS BEEN
BROUGHT OUT FOR OFFICE
WITHOUT HIS KNOWLEDGE OR
CONSENT.

Declaring that his name has been brought out as a candidate for mayor of Daytona Beach in the coming town election without his knowledge or consent, Dr. J. P. Esch says he is not a candidate for office, and wishes all his friends to understand he does not desire the honor and is positively not a candidate.

In explaining this matter Dr. Esch writes the Daily News as follows:

"I notice my name mentioned in your paper as a candidate for the office of mayor of Daytona Beach. I wish to say that this was done without my knowledge or consent and that I positively decline to run, as I have neither the time nor the inclination to attend to anything of the kind."

A. Vande Vord, who has also been mentioned as a candidate for the office of councilman at the coming Daytona Beach election, emphatically declares he is not a candidate in the following letter to the Daily News:

"On account of an unusual amount of business, I desire to state that I am not a candidate for the office of councilman for the town of Daytona Beach."

"A. VANDE VORD."

"LOST A black lynx collar. Finder will please return to 35 South Ridgewood avenue and be rewarded."

U. convention to be held in Jacksonville the first week in April.

The business meeting was followed by a pleasant social session with an impromptu program of music and readings, including vocal solos by A. N. Otis and the Misses Frances Sparber and Ruth Otis, piano solos by Miss Ella Williams and readings by the Misses Rice and Gorham and W. H. McGonegal.

Going Back.
Uncle Ezra—Did you see "Hamlet" at the opera house last night? Uncle Eben—Yep, and I tell you that fellow Shakespeare is certainly falling off. It wasn't near as good as his "Comedy of Errors" that I saw twenty years ago.—Puck.

IMPORTANT IMPROVEMENT JUST INAUGURATED

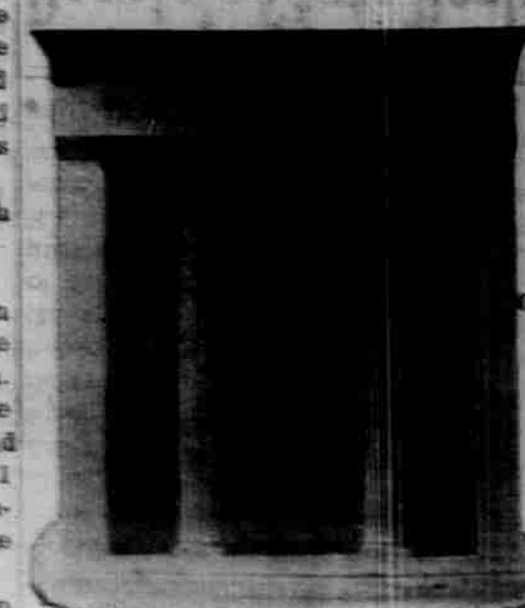

F. A. Root has his orange and dipper dredge engaged in the work at this place on the river front and of this city with the purpose of filling in and improving the large section of marsh land which he owns on both sides of the causeway to the North bridge. Mr. Root has cut through the causeway to open a way to his property on the west side of the road and a temporary bridge will be built over this opening, to be replaced later by a draw bridge.

Mr. Root will cut a canal 150 feet or more in width, half way between the causeway and the Ormond road, using the material excavated to elevate the balance of the marsh to the level of the causeway. He will later put the improved land upon the market, but at this time none of it is for sale. This work should prove profitable to Mr. Root, at the same time being a great improvement to all the surrounding territory and the river frontage of the northern part of the city.

STEAMER ST. LUCIE CARRIED CARGO TO JACKSONVILLE.

The steamer St. Lucie arrived here from the north yesterday afternoon and left early this morning for Jacksonville with nearly two carloads of freight for that city, the cargo consisting principally of a heterogeneous collection of articles, the stock in trade of Cohen Brothers of Jacksonville, who have been conducting an auction business in the J. R. Cole building on North Beach street since some time in the fall and recently decided to discontinue it.
